

the habitat for healing campaign

**BORGESS NURSING HOME
RECOGNITION OPPORTUNITIES**

The new Borgess Nursing Home will serve to strengthen our ability to meet the crucial long-term healthcare needs of this community we call home. The *Habitat for Healing Campaign* will allow us to continue to respond to those changing needs with flexibility, innovation and compassionate care. The goal of the New Borgess Nursing Home is to continue providing compassionate, quality, innovative and cost effective long term care to area residents who are frail, disabled, and/or elderly. Your gift will help us replace our existing nursing home with a new haven of caring and healing, one which offers more personal, private living space for those who need long-term care.

The *Habitat for Healing Campaign* welcomes and encourages you to make a gift in memory or honor of someone important in your life, or to establish your own named gift. To facilitate your choice, we have provided this information about our gift recognition opportunities and their corresponding gift levels:
